The Shortest Distance
Between Two Points Is

A STRAIGHT LINE

The Smartest Way To Finance Equipment Is With

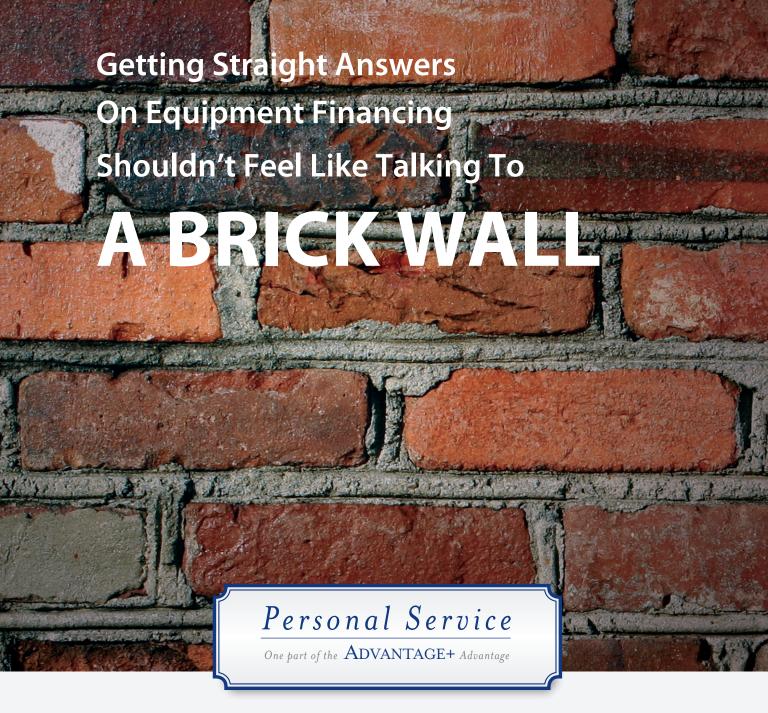

A DIRECT LENDER

In today's competitive business environment, you need every advantage you can get!

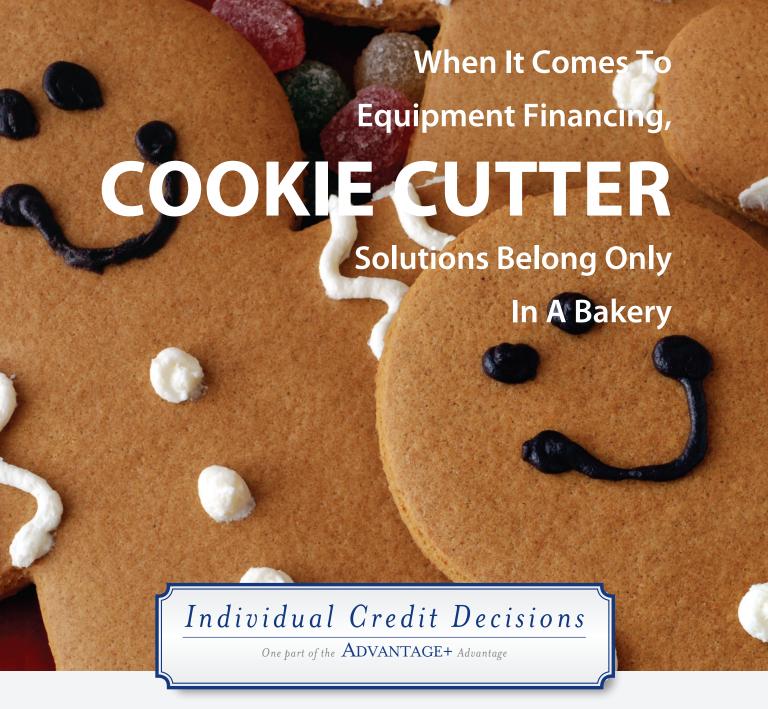

Let Advantage+ help get your business where it's going. Don't deal with the hassles and costs associated with home equity lines of credit, high interest credit cards, SBA loans and other financing companies, Advantage+ promises you personal service, individual credit decisions, direct lending and flexible finance structures. It's what we like to call **The Advantage+ Advantage.**

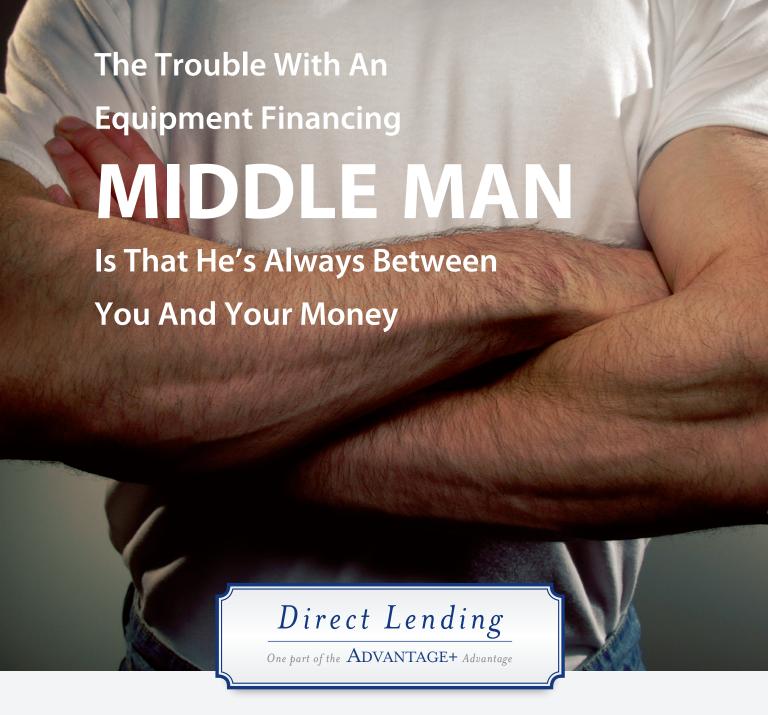

We hear you. At Advantage+ we are committed to breaking down those walls and providing the sort of personal service that opens doors to new opportunities for our customers. Our greatest strength is in understanding you well enough that our financing transactions become mutually rewarding, long-term relationships. Our success is tied to your success.

Variety is the spice of life. At Advantage+ we understand that each of our equipment financing customers has unique needs requiring unique financial solutions. That's why we don't rely on "cookie cutter," computer-generated credit decisions. Instead, we carefully and personally evaluate your business and determine the financing best suited to you.

800.949.7040 | www.advantageplusfinancing.com

Three really is a crowd. At Advantage+ we cut out the middle man altogether. While most equipment finance companies are simply brokers that sell your lease or business loans to national funding sources, we use our own strong capital base to lend directly to you. Call Advantage+ and you'll deal with the decision makers *and* eliminate middle man broker fees. Connect directly with Advantage+.

Limber up. At Advantage+ we bend over backwards for our customers. We can offer such flexibility because we are a direct lender, not a broker. Because we can fund 100% of your financing ourselves, we can offer features like early pre-payment without penalty. We can also restructure your loan should your business conditions change.
